

Pediatric CHILL Lab at DePaul University: Senior Internship Experience

Isaias Ponpa¹ & Selena Kim¹

¹DePaul University

General Lab Description

- Aims to examine the relationship between physical, mental, and environmental health in children and adolescents
- Interest in learning about the causes of disparity in pediatric chronic pain treatment

Lab's Mission and DEI Statement

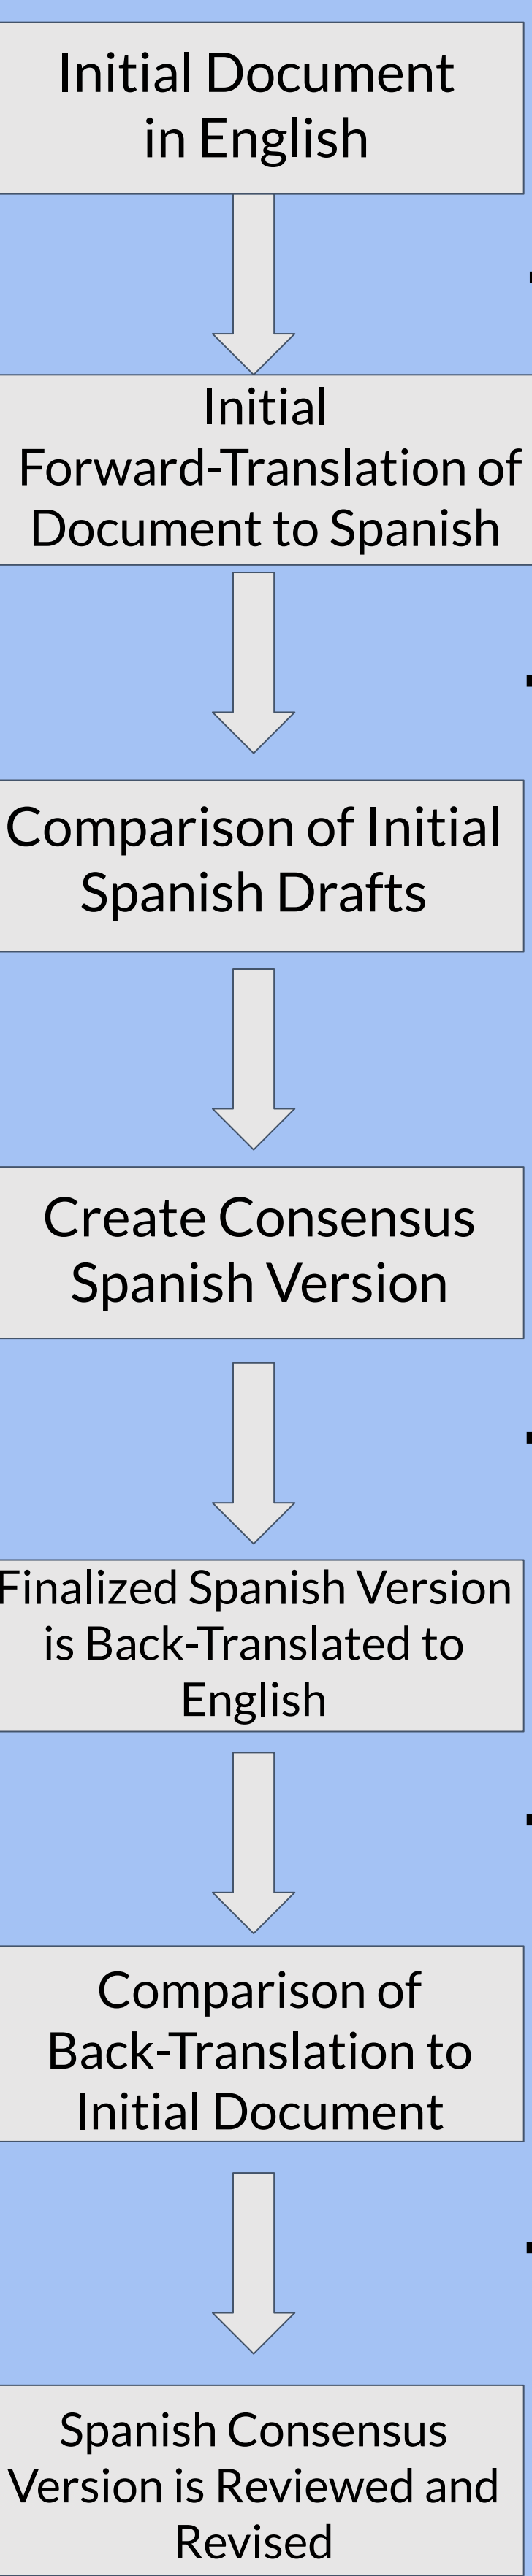

- We are committed to fostering a community within our lab in which team members feel safe, heard, acknowledged, respected, and supported also, committed to creating a space in which lab members can develop cultural competency.
- Our lab focuses on gaining a better understanding of the various factors that impact the physical and mental health of youth with health conditions and their families.
- We recognize that our research participants, colleagues, trainees, and mentors are systematically impacted by structural racism, heterosexism, cissexism, and ableism. We are committed to supporting those with marginalized identities and working towards systemic change.

Opportunities and Populations Served

- Literature systematic reviews
 - To better understand representation in randomized controlled clinical trials for chronic pain management
- Data management
 - Data entry, data analysis, coding
- Literature searches
 - Related to pediatric chronic illness and psychosocial functioning
 - Students can assist with literature reviews, manuscript-writing, and poster presentations

The Cellie Project

TRANSLATION PROCESS

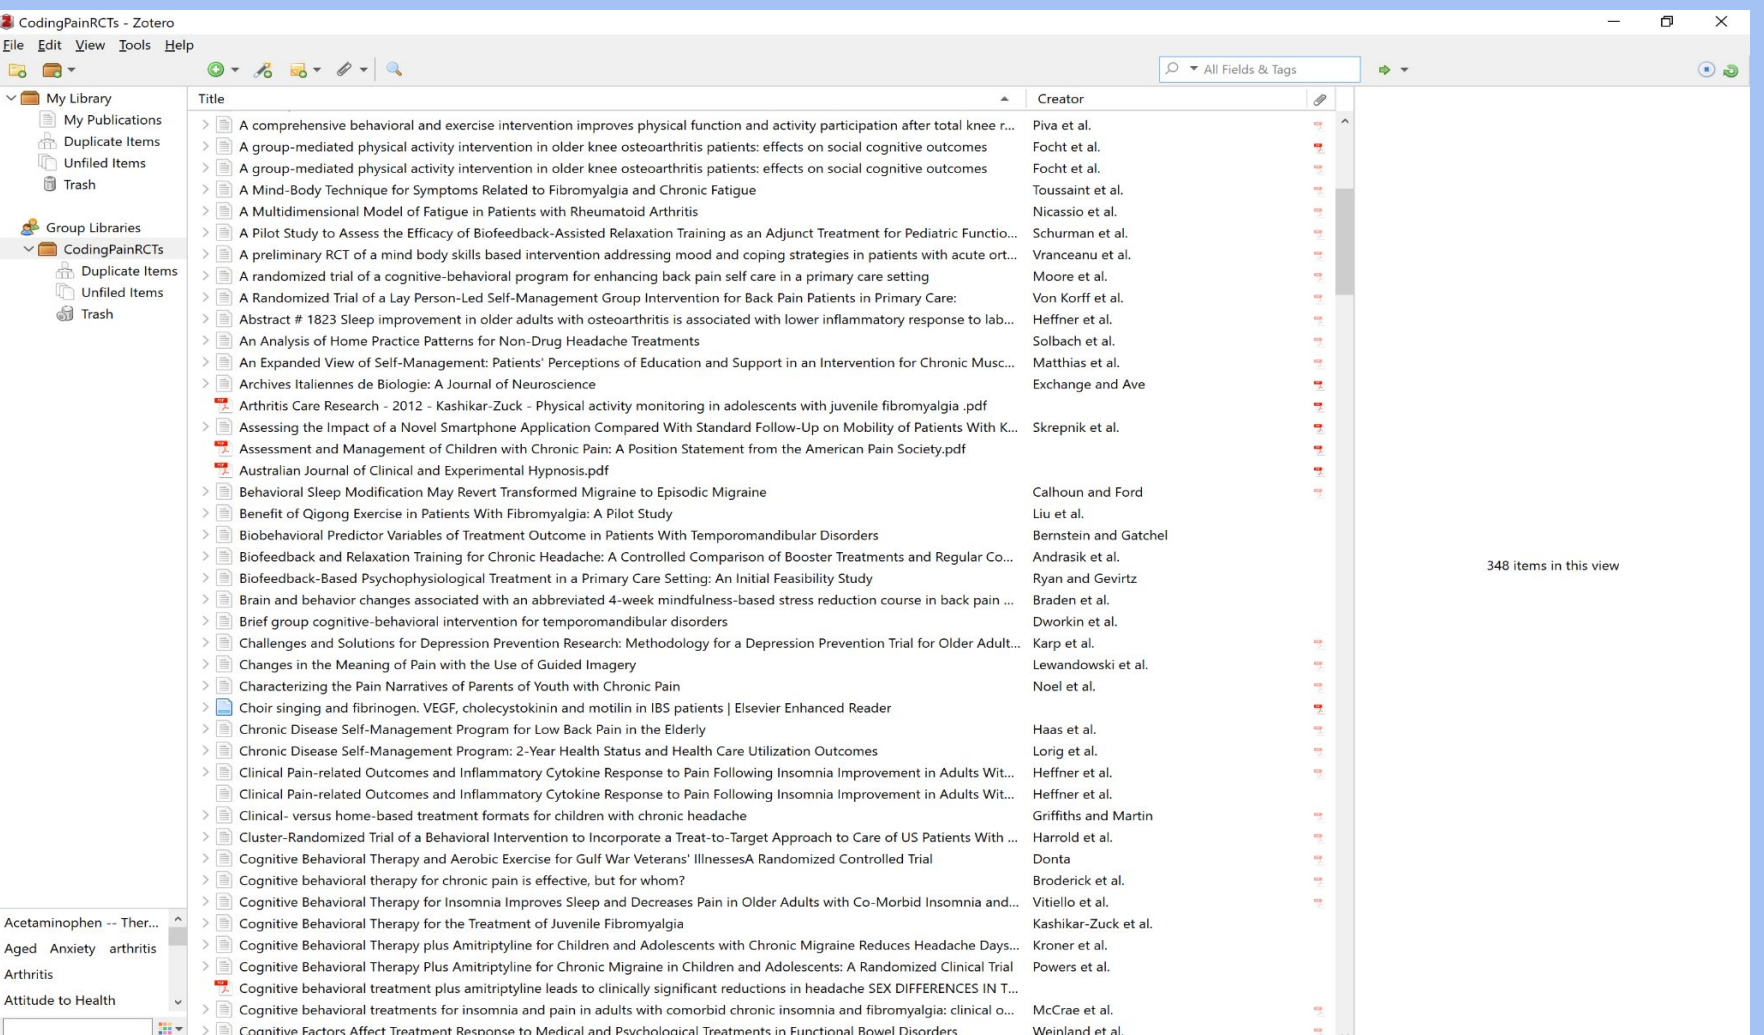

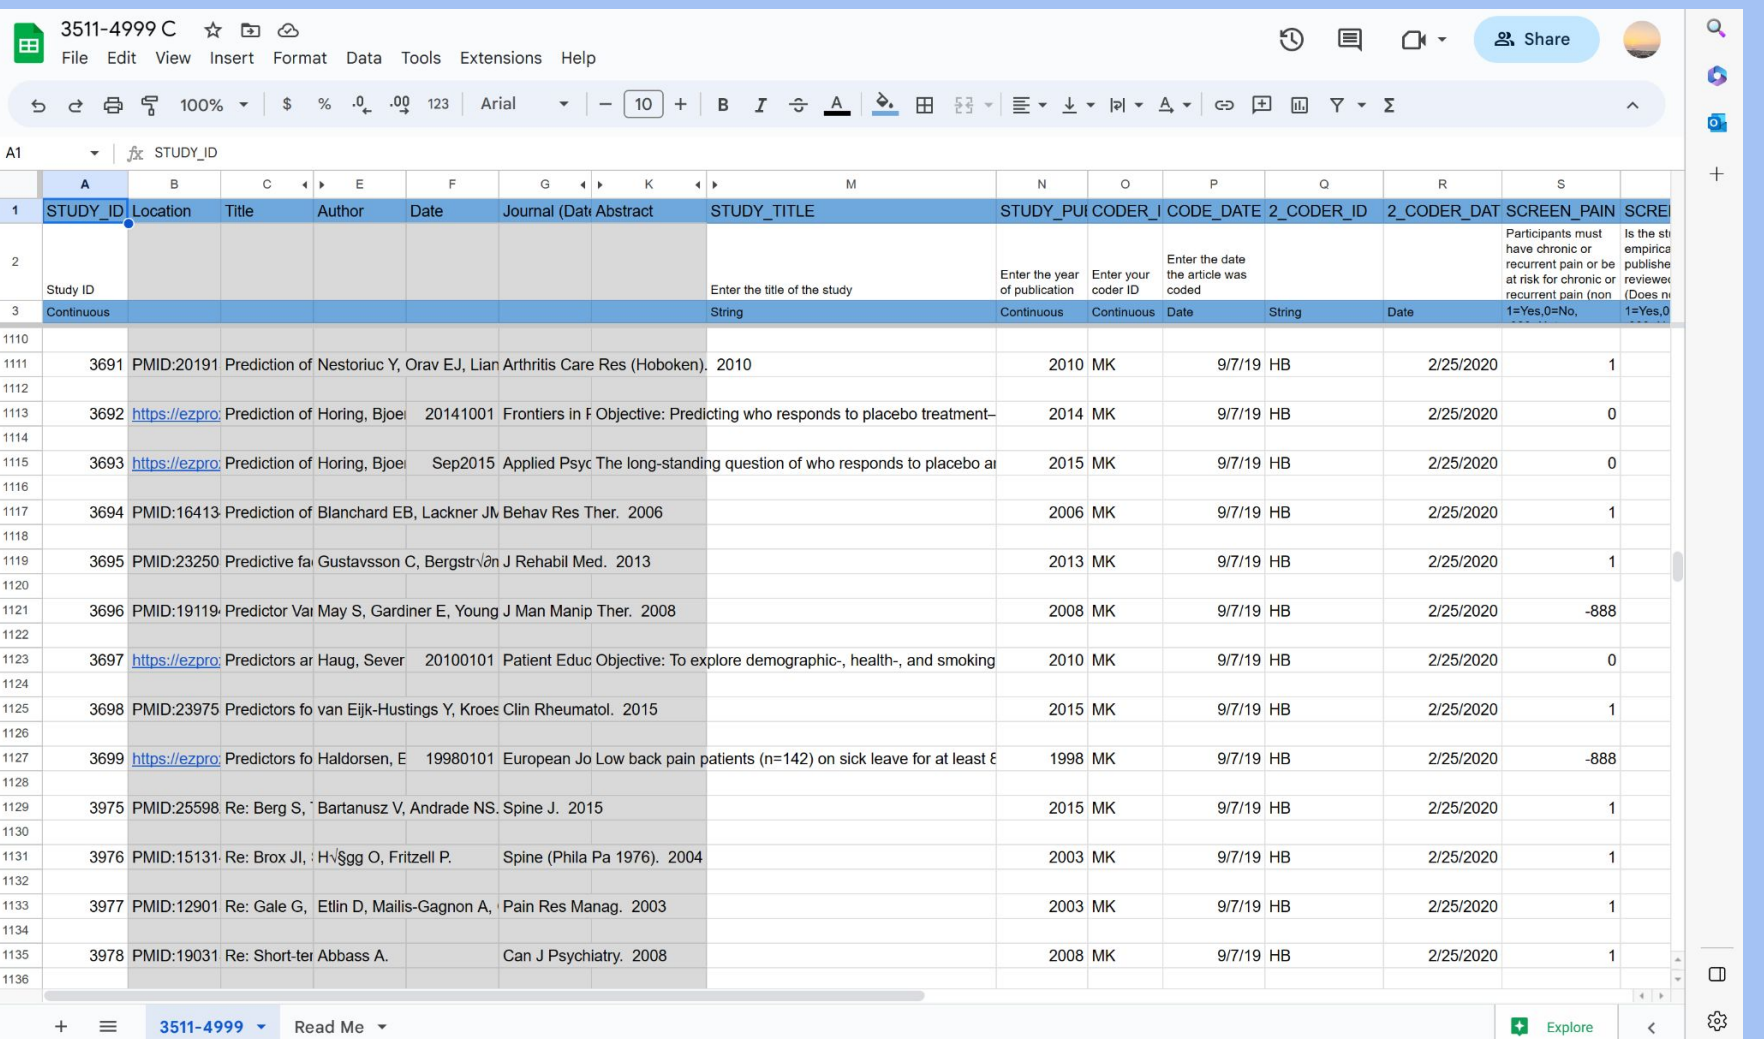

TRANSLATION TEAM

	PI	MI	RA (ISAIAS)	RA
Initial Document in English				
Initial Forward-Translation of Document to Spanish				
Comparison of Initial Spanish Drafts				
Create Consensus Spanish Version				
Finalized Spanish Version is Back-Translated to English				
Comparison of Back-Translation to Initial Document				
Spanish Consensus Version is Reviewed and Revised				

LEGEND

PI = Principal Investigator
MI = Medical Interpreter
RA = Research Assistant

Systematic Review

Instagram

Meet the CHILL Lab!

Selena Kim
Senior Undergraduate Student

CHILL projects:
- Systematic Review
- Research Assistant

Campus roles:
- DUKA Social Media Coordinator *2020-2022
- Uprising C.O Member *2019-2020

Fun fact: I like editing on photoshop and premier.

Michael E. DeBakey, MD

Acclaimed by some as "the greatest surgeon ever", which he credits largely to his mother for teaching him to sew, crochet, and knit

Meet the CHILL Lab!

Margaret Floy Washburn, PhD
(1871-1939)

First woman to hold a PhD in psychology in the United States

Isaias Ponpa
Senior Undergraduate Student

CHILL projects:
- Cellie Project
- Independent Study
- Psych Night Poster
- Systematic Review

Campus roles:
- Student Success Coach
- CSH Student Ambassador

Fun fact: I love music - I sing, play guitar & write songs!

Personal Experiences

- Cellie Project (Isaias)
 - Work alongside a translation team in order to develop and test a Spanish version of the Cellie Coping Kit for Craniofacial Conditions
 - Devoted almost three years in making sure the kit was culturally sensitive and competent and that will be accessible to Spanish-speaking families
- Systematic Review (Selena)
 - Assist with data management (including data entry and coding) and data analysis
 - Conduct literature searches related to pediatric chronic illness and psychosocial functioning
- Instagram
 - Weekly member lab posts and other chronic pain (related) researchers/ activists/ influencers

How to Join!

- Able to commit at least one full academic year in the lab (3 quarters)
- Highly motivated, reliable, and independent worker
- Interest in pediatric populations and pediatric chronic illness
